

DEPARTMENT OF THE AIR FORCE  
460TH SPACE WING (AFSPC)

NOV 21 2019

MEMORANDUM FOR NEWLY ASSIGNED ALLIED MISSION PARTNERS

FROM: 460 SW/CC

SUBJECT: Welcome to Buckley AFB

1. Congratulations! You have been selected for one of the best assignments in your career. On behalf of the men and women of Buckley Air Force Base, welcome to Colorado and Team Buckley.
2. You are joining an award winning team of combat-ready Airmen conducting unrivaled missile warning, surveillance, and integrated installation operations for America and our Allies. This installation supports 93 mission partners and 13,000 military and civilian members serving here at Buckley Air Force Base. I'm counting on you to be an integral part of this important team. Whether you're a newcomer of the 460th Space Wing or one of our many mission partners, you are a valuable member of Team Buckley.
3. To ensure a seamless transition, we want to provide some beneficial information that will answer many questions you may have regarding moving to the United States and working on an Air Force installation. The Military Installations website located at <https://installations.militaryonesource.mil/> will provide a base overview on check-in procedures and a variety of relocation assistance tools. I highly recommend you download the "Installation Booklet" that has detailed information on childcare, local schools and community information.
4. Upon arriving at Buckley AFB, your first stop should be to check in at your unit and begin in-processing. Next, military service members and civilian employees are scheduled for "Newcomers Orientation" in building 606. I invite family members to attend the sessions, as they will find the information very helpful. Buckley AFB handbooks are available at the Orientation and are an excellent resource for members and their families.
5. Additionally, your sponsor is another valuable resource for information or you can contact the Buckley Airman & Family Readiness Center at 720-847-6681. Welcome to Buckley Air Force Base; the home of the Panthers and America's Missile Warning Wing!

  
DEVIN R. PEPPE, Colonel, USAF  
Commander
